Workington,

6th February 1907.

To the Chairman and Members of the Workington Port Sanitary  
Authority.

Gentlemen,

I have much pleasure in reporting that there has not been a single case of infectious or contagious disease in the Ports of Workington or Harrington during the year 1906.

One foreign and four hundred and seventy nine coasting steamers with forty coasting sailing vessels entered the Port of Workington.

Thirteen foreign steamers and six hundred coasting sailing vessels entered the Port of Harrington.

All the foreign and a large proportion of the sailing vessels were inspected and all found in a satisfactory sanitary condition with the exception of a few that wanted cleansing.

No other objections could be made to them.

The harbour and docks are kept in a very good condition.

I have to thank the Inspector for his kind and ever ready assistance.

Yours faithfully,

(Signed) I.C.Hodgson M.O.H.
